How little the Kaiser and his chief lieutenant will enjoy the experience of having a well spring of state wisdom and all-pervading criticism, comment and counsel apart from the authorized Governmental source may be imagined, but how they are to prevent its flow it is difficult to see. In any event, it is quite plain that Blamarck, ex-Chancellor, is destined to become a more grievous thorn in the side of the young Kaiser than was Bismarck, Chancellor, when he essayed to curb the growing self-will, and finally the headstrong recklessness of his master.

led to the loss of all the positions gained in Africa by the enterprise of individual Englishmen. He justifies the alliance between Emin Pseha and Maj, Wismann and asys it was only natural that Emin should join the Germann Government expedition which will never imitate the fatal example of the English forces of advencing only to retreat. Sir Samuel points out how the Germans may in a few months regain the equatorial province by founding stations at Victoria Nyanza, and forming an alliance with Mwanga. Hing of Uganda, thus eventually securing control of the White Nile at Gondokoro, while Italy will become master of the situation by gaining possession of Berber and Kassala. Khartoum will then naturally fall. He concludes his letter by declaring that the equatorial province is of no commercial value. The cost of the transportation of the products of the province is ten times greater than they are worth. Legitimate purchase of ivory cannot be made in the province. England, he declares, may well be content to be an on-looker in that section of Africa.

He says the Americans throughout all China are afraid the latest attack upon the Chinese in the United States will kill all mercantile relations between the two countries, if not lead to something worse.

"The enumeration bill," said he, "Is injurious to the peace of this country. The Chinese Government duplicated the exclusion act after giving this country plenty of time to retract, if so disposed. By the Empeyor's new decree all Americans who have attained a residence in China are permitted to remain, but further immigration is forbidden. Notwithstanding the continued aggravation legislation in this country, we have been able to build up a good trace between the two nations, but now the Emperor has put a black eye upon it all and we are helpless to do anything. The fact that the Chinese government was so slow about adopting retalizatory measures is proof that it will stand firmly by the decree. You know there are some 300,000,000 people in the Chinese Empire, many of whom are trained in the science of war. If they attempt to discipline this country we could do but little. We have no navy and no protection on the Pacific slope. The Chinese Navy is handled with the beat skill and San Francisco would soon feel its force in case of an outbreak between the nations."

created surprise. It now develops that to far as can be learned on unofficial authority) an understanding has been had with Mr. Bisine by which the President, at the request of the State Department, will recommend to the State Department, will recommend to the Senate a treaty of reciprocity with the Argentine Republic and any other South American country which may wish to negotiate such a treaty. In fact, it is not all certain that the treaty with the Argentine Republic may not have been negotiated before this, and that it is not all ready for transmission to the Senate whenever Mr. Bisine may consider the subject ripe. New England Congressmen say that the negotiation and ratification of such a treaty would be a complete offset to the duty which has been piaced on hides in the McKinley bill; that it would mean practically free wool. Leading members of the Senate Committee on Finance, before whom this proposition was laid by a representative of the United Press, said that if agreed to it would undoubtedly answer all of the objections to the McKinley bill which could be raised by the New England people.

The Depression in Agriculture,

WASHINGTON, D. C., April 5 .- How serious the agricultural depression has become can only be judged from the action of President member of his Cabinet for suggestions. Secretary of the Treasury Windom is compiling a table showing our trade with foreign countries and how it may be increased. Secretary Blaine is seeing what can be done with South American countries, while Secretary Rusk will show how it will pay the farmer hereafter to raise more of such things as are imported. One motive which the Administration had in ordering all cattlemen and their herds out of the Indian Territory the other day was to meet complaint of the farmers, which have been blowing in like snowflakes. At the same time there was the additional motive that this order would make the Indian more willing to part with their land. member of his Cabinet for angrestions. Sec

the Indians more willing to part with their land.

It is now proposed to go farther and order cattlemen off all other Indian reservations. The Administration is also considering seriously whether it will not be feasible to prohibit free grazing on the public domain, and thus put all cattle-raisers upon an equality. It is felt that justice to the stockman, who pastures his own land, demands that free grazing of the public lands shall be sholished. But how to put this idea into practical execution is puzziling the Administration. There is one drawback to this plan. Any suddem action, it is feared, will have the effect to rush upon the market during the coming seasons great numbers of range cattle and break down prices. It is claimed by some that the order relating to the Indian Territory will have a bad effect, at least temporarily, upon prices. One thing can be said: The Administration is much in earnest about doing something to counteract hard times among the farmers, and is trying to do all in its power to relieve them except to alter the tariff, which the Cabinet officers see, perhaps, will bring about the desired relief, but will not act on it.

Proposed New Banking System,

WASHINGTON, D. C., April 5 .- By reques enator Ingalls to-day introduced a bill pro values involved, however, taken into consideration with commission experiences still fresh is mind and the proneness of such bodies to turn the judicial scales with money bags, have greatly increased the support of the Edmunds plan.

From present indications the House is going to send into the Senate just such a measure as will satisfy that body. This is Congressman Wycham's bill, to establish a United States iand court and to provide for a judicial investigation and settlement of private land claims in the Territories of Arizona and New Mexico and in the States of Colorado.

The committee having it in charge have finished their work and will soon report it to the House. According to its provisions there shall be a United States Land Court, consisting of a Chief Justice at \$3,000 a year and two associate Justices at \$3,500 a year each, to be appointed by the President and to hold office during good behavior. This court is to exercise jurisdiction in the settlement of private land claims, holding alternate sessions in Washington and the States and Territories designated. It is to have a chief clork at \$2,000, an assistant at \$800, a stenographer at \$2,000, and an interpreter at \$1,500. The sugarmen, refiners and lobbyists are skulking around there. They will be assisted. The sugarmen, refiners and lobbyists are skulking around among the members arguing for an increased duty. If they fail in this they will work for votes against the whole bill. The proposition to restore hides to the free list will come from the Republican side and will, of course, have the support of most of the Eastern members. Republicans who have cannerles in their districts, and some who do not believe that it is possible to build up a tinplate industry in this country, have decided to make an effort not only to prevent the proposed increase of duty, but to have tin plates put on the free list. A motion will be made on the Republican side by Mr. Payson, it is said, if not by some other member, to put tin plate on the free list. A proposition may be coupled with this to take the duty off canned goods. A number of the leading glove importers and dealers from New York appeared before the Ways and Means Committee to day to ask that the ad valorum system of duty be changed to specific, to prevent undervaluation.

On motion of Mr. Wheeler of Alabama, from the Committee on Military Affairs, a bill was passed amending the articles of war so as to provide that in times of peace general courtsmartial for the trial of commissioned officers shall be appointed only by the President, the general committee and in the army, or the general officer commanding a military division; and that judge advocates must not be present at any deliberation of courts martial in close session.

On motion of Mr. Cutcheon of Michigan, from the same committee, a bill was passed granting the right of way through the Feri Pemburn Military Reservation to the Duluth & Manitoba Railroad Co. Also a bill providing that in time of peace all enlisted men charged with offenses now cognizable by the garrison or regimental courts-martial shall, within twenty-four hours after their arrest, be brought before a summary court, which shall consist of the line officer, who shall hear and determine the case, and, when satisfied of the guilt of the accused party, adjudge the punishment to be inflicted. The accused may object to a hearing by a summary court and demand a trial by court martial, which demend shall be granted by right.

Justices' courts are not often the scenes of large money transactions, but Constable Hyde had one yesterday in Justice Spaniding's court, in which he received \$63,510. The case was one of a series of attachments against the Academy of Music people, in which Constable Petureson was directed to sell the building material and office fatures of Clark & Pindiay, the Chicago srehitects engaged in the work on that building. This order was to have been carried out on the 2d inst., but a telegram delayed it to yeaterday afternoon, when, as stated, the sum of \$62,210 was paid over and estisfaction was entered in all the attachments. It is said work on the Academy of Music will now be resumed.

THE SCHOOL BOARD CASES

POSTPONED AGAIN THROUGH JUDGE BAR CLAY'S WRIT OF PROHIBITION.

The Macklinites Make a Move to Gain Time and Are Successful—The Way in Which the Writ of Prohibition Was the Court of Appeals.

cases grow, the more complicated they be-come, and the attorneys on both sides are now deep in the technicalities of law with the object in view as far away as when they be gan. Yesterday Judge Barclay of the State Supreme Court arrived in the city and an inspiration struck the attorneys for Messrs. Boliman, Rogers and Bartholdt. They were afraid to face the Court of Appeals on an argument of facts, and if they could only defer that ordeal until the Supreme Court would pass on the law under which the present School Board was elected, they would consider themselves safe. The attorneys for the respondents are poss tive the Drabelle law is unconstitutional and then the entire Board of Directors will proceedings until this desired culmination uld be reached has been the sole aim and thought of the attorneys since they laid the matter before the Supreme Court. Frank M. Estes was speaking of a change of venue to the Kansas City Court of Appeals last Tuesday, but has no precedent on which to Tuesday, but has no precedent on which to base his plea. The Court of Appeals holds that it is a court of final jurisdiction and that it cannot be appealed from, neither can a change of venue be taken from it. Knowing how anxious Judges Rombauer, Biggs and Thompson are to wash their hands of these cases by deciding them as early as possible. Mr. Estes realized that his chances for ebtaining a change of venue were very small. On learning of Judge Barclay's presence in the city the idea struck him that a writ of prohibition might be obtained against the Court of Appeals to prevent it passing on the School Board cases until after the Supreme Court had passed on the case. Being Good Friday, and no Courts in session, Mr. Estes was fortunate in finding his brother attorneys in their offices. Judges' consultation room and there the plea was made for a writ of prohibition. After arguing all afternoon, the attorneys submitted the plea and Judge Barclay granted an order asking the Court of Appeals to show cause why a writ of prohibition should not be granted.

THE WRIT.

The application alleged that as there was a base his plea. The Court of Appeals holds

and Judge Barelay granted an Order assaing the Court of Appeals to show cause why a writ of prohibition should not be granted. The application alleged that as there was a constitutional question involved the Court of Appeals had no jurisdiction. After hearing the arguments Judge Barclay announced that while he differed with the Court of Appeals upon the question of an appeal, that court having held that no appeal could be taken from its findings, he was in some doubt about the constitutional question involved, and out of deference to his colleagues on the Supreme Bench, he would issue an order to show cause. He thereupon made the following order in the cases of Directors Macklin, Rogers and Bartholdt: "Whereas, It has been suggested to the undersigned, one of the Judges of the Supreme Court of Missouri, during vacation of said court, that yon, as Judges of the St. Louis Court of Appeals, are proceeding to take cognizance and jurisdiction of a certain cause in said court, entitled State ex rel., et., vs. W. P. Macklin, of which, as is alleged, said Court of Appeals can not properly have or take jurisdiction, now, therefore, having duly considered said suggestion, it is hereby ruled and ordered, to the end that said matter may be fully heard in due course by the Supreme Court of Missouria according to law, that you, as Judges as aforesaid, dojappear before the said Supreme Court at the April term, A. D. 1890, and on or before the third day thereof to show cause, if any there be, why a writ to prohibition should not issue as prayed, requiring you to take no further jurisdiction of said cause."

The application made by Mr. Hugo Muench, attorney for Reimler, for a similar writ to that issued in the cases of Bartholdt, Rogers and Macklin, was dealed.

attorney for Reimler, for a similar writ to that issued in the cases of Bartholdt, Rogers and Macklin, was denied. TO-DAY'S COURT PROCEEDINGS.

This morning all the attorneys representing the School Directors were in court. When court was formally opened, there was a prief silence. The attorneys did net volunteer to begin. They were there to make arguments on facts and present tax receipts or show cause why Messrs. Macklin, Rogers, Bollman, Bartholdt and Reimler should not be ousted from the St. Louis School Board, but not all of them spoke up. Judge Rombauer, seeing the delay and knowing they desired to hear from him, said he had heard a member of the Supreme Court had granted an order late yesterday and knowing they desired to hear from him, said he had heard a member of the Supreme Court had granted an order late yesterday afternoon asking the Court of Appesis to show cause why a writ of probibition should not be granted in these cases. He paused a moment and repeated that he had heard such an order had been granted, but not having received offichal notification of it the court was not bound to recognize it, but being satisfied the order had been issued, as a matter of courtesy to the individual member of the Supreme Bench who had issued it, the cases would be continued until Tuesday, April 15. He then went on to quote from the authorities quoted to Judge Barclay and from the constitution of the State, showing when an individual member of the Supreme Court had no power or authority to issue a prohibition or an order to show cause one should not be issued. The constitution of the Supreme Court to the issuing of writs of mandamus in urgant cases, and there the individuals power ended. In all the cases quoted, he said, where individual judges granted such orders or writs, the Judge who granted the writ was the only member of the court and being the only member of the court and being the only member he had the power in himself which courts with two or more members hold.

The Standing-Kelly Contest.

The Standing-Kelly School Board Election Contest Committee met last night at the Polytechnic building for a final hearing of evidence. Chairman Bosley presided and Directors Auler, Macklin and Reimler were present. Attorneys Muench, Stark and Rassleur were also in attendance. The session proved to be a very lively one. Solomon Quinlivan, one of the judges in the 126th procinct, was put through a cross-examination. He said he could not explain why the judges' initials were not wristen upon the backs of the ballots. He said that he was not cognizant of the full requirements of the law at the time he officiated. He admitted that when the votes were counted at night he was surprised to find that Standing and Coffey had so few. Neither he nor Messrs. Dailey and O'Keefe, the other judges, could give any satisfactory explanation of the uniformity in the soratching of the ballots. In conclusion Mr. Muench read exceepts from the Missouri Court of Appeals decisions, showing that judgment had been rendered against bailey and his bondsmen for \$3,341.19 for withholding fees while he was clerk of the Criminal Court. The reading incensed Daily greatly and he called Muench, a scoundrel and said that the latter had brought up that matter for the purpose of injuring him unjustly. New York, April 5 .- While stalwart In pector Williams of the Police Department as sauntering along Mott street a few days ago in citizens' dress, on the lookout for inattentive policemen, accompanied by Roundsman Kersinger, he was mistaken by a fairly well-dressed young man for a greenborn and invited to "take in the sights. "Oh, the joss house, oplum dens and fantan games."

"Well, I guess I'll look for some one who can protect me, should an occasion require it," said the six-foot Inspector, glancing contemptuously upon the much smaller man. "Don't let that trouble you, sir," observed the persistent guide; "I'il give you ample protection and the cost will be only 50 cents."

Annoyed at being mistaken for a countryman, the big Inspector swelled out with indignation, which Roundsman Kersinger mistook for a signal to set promptly, and he was dignation, which Roundsman Kersinger mis-took for a signal to act promptly, and he was equal to the emergency. He 'let go his right' and landed behind the stranger's right ear. Lockport, N. Y., April 5.—The serious difficulty which the members of the First Congre gational Church of this city have had over the matter of card playing, dancing and theater going has finally terminated in the withdrawal of sixty-six families. The pastor and advisory committee of the church brought this on the body through their determined stand in refusing to admit candidates who would not promise to abstain from such amusements. The bolting members will form a church of their own founded on Congregational doctrines. They tried to negotiate with the Young Men's Christian Association for their assembly hall to hold services in. Some of the Pastor's adherents who are directors in the Y. M. C. The wealthy members are all among those who withdrew, and financial support of the church being withdrawn its total disruption is expected. The engines of the Yorktown were designed after considerable controversy, the prevailing idea with some of the naval officers being in favor of compound engines in lieu of triple expansion, the type fitted to the vessel. The results so far obtained appear to have justified the fitting of the latter type of machinery. It is now said in well informed circles that attempts have been made to introduce quadruple expansion engines into some of the new ships, but that considerable opposition is met with at the Navy Department. It is deemed noteworthy though that this same objection arose when it was attempted to substitute triple expansion engines.

noteworthy though that this same objection arose when it was attempted to substitute triple expansion engines.

The determination of the Navy Department to adopt Commodore Melville's method for finding the speed of war ships is universally praised among engineer experts. This plan is to run a vessel in amooth water at different rates of speed and under such conditions which must be the most favorable to determine the speed efficiency of the vessel, in other words, to learn the number of revolutions necessary to give different rates of speed. With this efficiency known and used as a constant guide, a vessel can be tried for speed. With this efficiency known and used as a constant guide, a vessel can be tried for speed in any kind of weather, inasmuch as the steaming qualities will be determined by the rate at which her screw revolves. It is not deemed essential for contractors to demonstrate the ability of the sinds to make contract speed under adverse circumstances. A horse is classed according to the speed made by him which is always done on a fast track. In the game way a war ship should have the efficiency of her screw tested in smooth water. A well-known military man hints that the Ordnance Department of the army will soon be able to furnish a desirable type of small caliber magazine guns for the army and avy; that the arm will be of the detachable magazine class, and that the breech mechanism will be operated by means of a grip underneath the part of the detachable magazine state, is now in use on the Lee rife and on the foreign rifle.

had many young men admirers and among them was Dr. Sheehan, but the mother made strong objections to his attentions to her daughter, denied him the privilege of calling at the house and demanded that he discontinue his suit. The daughter accepted the situation, or, at least, pretended to do so, and seemingly settled down into a demure and studious school girl. Yesterday morning she set out for school as usual, but on the way there she met the doctor. He had a close carriage near by in which they both concealeu themselves and were driven rapidly to Schuylerville, where they were married by the French priest, and then took the cars for Saratoga. The absence of the girl from school excited the suspicion of some of her schoolmates and they informed the mother that she was missing. Procuring the services of a policeman the mother drove rapidly to Saratoga, supposing the run-aways would come here to have the marriage rite performed. But she was not only off the track, but too late. The daughter and her lover had shrewdly stooped at Schuylerville and been married there. On the relation of these facts and the production of the priest's certificate showing that the couple were properly married. Justice Allen dismissed the young lovers with his blessing, advised the irrate mother to condone the act of the daughter, accept Dr. Sheehan as her son-in-iaw and live happlity together. All this may come to pass later, but as it was the couple returned to Greenwich without the reconciliation of the mother. Dr. Sheehan says that he and his bride will soon settle in Sing Sing.

road cases that has been tried for years, and lished, was rendered in the United States Dis trict Court before Judge Thayer this morning. The statement of facts is plan as they went before the jury.

On the night of May 23, 1889, the west-bound passenger train of the St. Louis & San Francisco Railway was wrecked at a point about five miles west of Sullivan. The point of the wreck was on a curve and on the top of a high embankment. Six cars were completely demoilshed and forty-saven people injured. An examination before daylight disclosed that at the point of derailment about ten spikes had been removed from each side of two rails, the angle bars taken off and thrown down on the foot of the dump and the rails removed in a manner that would make a wreck necessary, as the point was on the outside of a curve, as the foot of a grade about three miles in length, and at a point where a wreck would be unavoidable. Suspicion at once attached to two men who were seen in and about the wreck on the svening previous, and who has been seen about the neighborhood for some two or three days. Although a large reward was offered for the apprehension and conviction of the wreckers, up to the present time the railway company has been unable to procure sufficient evidence to warrant the arrest of the supposed wreckers. A great many damage suits were is plain as they went before

nay been unable to procure sufficient evidence to warrant the arrest of the supposed wreckers. A great many damage suits were brought in various courts along the line of the road. The first case which was brought was that of Marcus Lippe, which was called in the United States Court on last Monday morning. The case was bitterly contested and the evidence of more than one hundred witnesses taken. E. D. Kenna and L. F. Parker appeared for the railway company. The case was given to the jury late last night and a sealed verdlet returned a short time afterward. Plaintiff sued for \$3,385,385 being claimed for baggage lost in the wreck and the remainder for personal injuries sustained by him. The company conceded its liability for the baggage, and the court instructed the jury that regardless of whether the railway company was negligent or otherwise, there was itability for the value of the baggage absolute insurers of the same, and in case of its destruction the railway company becomes liable, independent of the question of whether it was at fault or not. The only contest, therefore, was as to the personal injuries sustained by the plaintiff. The theory of the defendant was that the wreck was caused by the mailcous removal of the rails by some unknown persons. The theory of the plaintiff was that after the wreck occurred the employee of defendant caused the spikes and angle bars to be withdrawn. The jury was out but a short time and returned a verdict in favor of the railway company, thereby exonerating the railway company, from all blame. After the verdict in the Lippe case was returned, the plaintiff in the case of Jos. C. Howell against the same company, and in which damages for \$30,000 were claimed on the case of \$30,000 were claimed on the case of \$30,000 were claimed on the case of \$30,000 w from all blame. After the verdict in the Lippe case was returned, the plaintiff in the case of Jos. C. Howell against the same company, and in which damages for \$30,000 were claimed on account of injuries received at the same time, voiuntarily dismissed the case at his own cost. The lis a decisive victory for the railway company, as the case was understood to be a test one and will practically and all litigation prowing out of the wreck. The jury was a country one throughout, and the case was bitterly fought.

DEFALCATION BY PERMISSION.

The conviction is irresistible from a consideration of the circumstances that the series of defalcations on the part of State Treasurers, which have disgraced the Democratic administrations of a num ber of States, has been due as much to the carelessness and neglect of duty of other State officials as to the rascality of the Treasurers.

The last two instances in Missouri and gross neglect to regard plain provisions of the laws framed for the purpose of protecting State funds from embezziement and misuse. The law of Maryland required the Governor to make thorough Treasurer and Comptroller semi-annually, and required the Comptroller to accompany the Treasurer every time he opened Governor nor the Comptroller attended to the Boulevard in the afternoon will be worth their duties in this manner, and State

The Missouri law passed by the last Legislature, to which attention has been islature, to which attention has been called heretofore by the Post-Dispatch, is exceedingly strict and strong. It provides for monthly reports to be furnished the Governor by the Treasurer, Auditor, and officers of depositories of State funds under heavy penalties for failure to do so. Had the requirements of the laws of these two States been faithfully observed they would have been spared the shame of robbery by their chosen officials, because the certainty of immediate discovery would have checked the dishonest impulses of the State Treasurers.

THE NEW ANTI-TRUST BILL. The anti-trust bill reported by the Senate's Judiciary Committee as a substitute for Sherman's has the merit of being simply suplementary to the common law. It provides statutory penalties, definitions and remedies to more speedily and vigorously enforce the existing common law prohibition of combinations and conspiracies in restraint of trade and free spiracies in restraint of trade and free competition. Of course an act of Congress can operate against such combinations only where they affect trade between the States and with foreign nations, and similar acts will have to be enacted and enforced in all the States to completely suppress illegal trusts, combinations and conspiracies in restraint of trade. But as a model for State legislation on the subject, it is a great improvement on the Sherman bill. It seems really intended to be effective, and not intended to be effective, and not intended to be wiped out in its first encounter with the courts like our Missouri anti-trust statute. Nor does it apparently attack legitimate business cooperation. There is nothing in it, however, to exempt members of labor combinations from heavy fines and imprison. competition. Of course an act of Conget a Sunday Post-Disparch is qualified apparently attack legitimate business conations from heavy fines and imprisonment for engaging in conspiracies in restraint of trade, if the courts should hold that the strike agreements of labor combinations are such conspiracies.

THE leather industries of this country have achieved their greatest increase and prosperity since the duty was removed from hides. Our exports of leather manufactures have since increased from \$2,000,000 a year to \$12,000,000, and our manufacturers of harness, saddlery, boots and shoes have come nearer supplying the entire home demand than they ever did before. Now the McKinley committee proposes to put a tax of 15 per cent ad valorem on hides, and to allow an equivalent drawback on the small amount of leather goods exported. This is to enable our leather manufacturers to sell their goods to foreigners cheaper than they can to home customers. It puts a tax on the vast leather consumption of the United States in such a way that our leather manufacturers will be less able to compete with foreign goods made of untaxed hides, and the cattle grower will get no more benefit from this tax than the sheep grower now gets from the tax on wool.

The American Ax & Edged Tool Co. of Pittsburg, organized some months ago with a capital of \$5,000,000, to consolidate or combine all the edged tool plants, has since obtained control of thirty-five of the leading concerns, with their brands and tradealing concerns and has been carefully prepared by the surpliced choir of boys, and young men. It is as follows: The Poversional "The Strife is O'er," Palestrife in C'er, "Palestrife in C'er," Palestrife in C'er, "Palestrife in C'er," Carey; hymn, "The Day of Resurrection," Gray; Offertory (2010), "The Risen To-Day," Carey; hymn, "The Day of Resurrection," Gray; Offertory (2010), "The Risen To-Day," Carey; hymn, "The Day of Resurrection," Gray; Offertory (2010), "The Risen To-Day," Carey; hymn, "The Day of Resurrection," Gray; Offertory (2010), "The Risen To-Day," Carey; hymn, "The Day of Resurrection," Gray; Offertory (2010), "The Risen To-Day," Carey; hymn, "The Day of Resurrection," Gray; Offertory (2010), "The Risen To-Day," Carey; hy factures have since increased from \$2,000,-000 a year to \$12,000,000, and our manu-THE first meeting of the stockholders of more benefit from this tax than the sheep

And yet there is not in the Ways and Means tariff bill a single proviso to deprive such monopoly combinations of that tariff protection which creates and fosters them.

> THE Shoe & Leather Association of New England has sent a protest to Congress against the imposition of a tariff on hides and skins. The proposed tariff would be a tax on leather goods for the benefit, not of the cattle raisers, but of the beef packers and butchers.

Additional Programmes of Sunday Services

—Y. M. C. A. News of Interest.—The Hebrew Feast of the Passover and How It Will Be Observed in the Temples—Father Butler's Fair.—Religious Notes and Personals.

To-morrow will be Easter Sunday, and the glorious feast of the resurrection will be appropriately celebrated in all the Christian Churches. There is scarcely a Christian edifice of worship which will not be profusely decorated with flowers and plants, and the music will be of superior excellence. The choirs of all the large churches, Catholic and denominational, have been rehearsing elaborate programmes for some time, and when the organs peal forth again to-morrow after being husbed since Holy Thursday it will be as an accompaniment for hallelujahs. After services in the morning the day will be devoted to the usual Easter sengagements, or colored eggs by children. The ladies all select Easter as the day for wearing their new appriars hats and bonnets, and if the day should be a bright and pleasant one, the sight on the Boulevard in the afternoon will be worth seeing.

The Gospel service at the Union Depot Railway branch of the Y. M. C. A., 126 South Footroon, will be led by Secretary Cobb. Cottage Prayer Meeting will be held at the new school and at the serving will preach on Easter Sunday morning and evening. WHY HE DID IT.

THE MAYOR'S REASON FOR REVOKING THE APPOINTMENT OF THE COMMITTEE.

Stone's Name That Are Unknown to That Gentleman-He Gets an Appointmen and a Complimentary Letter From the

Mayor Noonan created something of a sensa tion before he closed his office at the City Hall late yesterday afternoon by sending a notice to the Register's office that he had revoked the and Clarence W. Hoblitzelle, the auditing week to examine the books of Treasurer, Auditor and Comptroller. charter requires the Mayor to appoint such a committee every year, just as the fiscal year is about to expire. The fiscal year closes next Tuesday, and the Auditing Committee had it mittee generally is composed of two person of the same political party as the Mayor and one of the opposite. Of Mayor Noonan's selection, Messrs. Stone and Hoblitzelle are Democrats, and Mr. Fitch was chosen as the Republican Representative. They had cation of the appointments and to say that Various opinions were expressed as to the cause of the Mayor's strange action the significance back of It was reported among other things that the Mayor had been informed that Mr. Hoblitzelle was not as friendly as he might be to his Honor in a political sense. Others had it that it was all on account of Mr. Stone. The latter theory turns out to be correct, and back of it there is an

latter theory turns out to be correct, and back of it there is an INTERESTING STORY.

When Mayor Noonan was seeking the Democratic nomination for the Mayoralty, Mr. Stone, who is an ex-Congressman and a former member of the City Council, was an advocate of the cause of the then Mayor Allen. He went to the convention from the Twenty-seventh Ward as an Allen delegates and in the tumult that attended the wrangles between the Noonan and Allen delegates that served to make the convention a memorable one to those who were in the hall and witnessed the scenes, the voice of the ex-Congressman was heard more than once protesting against the methods of the Noonan delegates. Like the other Allen leaders in the Convention he shouted in vain.

When the Mayor announced the names of the Auditing Committee some surprise was expressed that he would appoint an old Allen leader, but the politicians held that as the position given him did not amount to much, viewed from a political standpoint, the Mayor only wanted to show that the hatchet had been buried and that it was his desire to harmonize all the elements of the local Democracy, not

to show that the batchet had been buried and that it was his desire to harmonize all the elements of the local Democracy, not excepting the men who made the fight for Allen at the primary election and in the con-vention.

Allen at the primary election and in the convention.
Some of the Mayor's friends who were not of such a forgiving disposition, it is said objected strongly to this selection and as the story goes went to the Mayor and plainly told him why. Whether this be true or not, it is certain that the Mayor sent for Auditor Brown a day or two ago and told him that for personal reasons he had concluded to recall the apppointment of Mr. Stone. The appointment had been made at the earnest solicitation of Auditor Brown, who it is claimed had been requested by Mr. Stone to present his name. The Auditor was surprised, and left the office without receiving any explanation from the Mayor as to the nature of the

There were a number of politicians around the City Hall this morning looking for some news on the subject, but they could not see the Mayor as he was detained in another part

the Mayor as he was detained in another part of the city.

Auditor Brown when seen said he had no idea what reasons the Mayor had for objecting to Mr. Stone after having made the appointment. He said that Mr. Stone was an expert accountant, and that he had urged his appointment for that reason. 'I appointed him myself when I was Mayor,' he said, and he served in the same capacity last year, just before Mr. Allen went out of office.

out of office.

Was seen at the Famous, where he fills the position of Credit Manager, by a Post-Dis-PATCH reporter this morning, and asked if he had heard that the appointments were revoked on his account. He said he had not, and appeared to be very much surprised.

"I shought," he said, "it was done on account of Mr. Hoblitzelle and when the Mayor appointed me he sent me a personal letter, count of Mr. Hoblitzelle and when the Mayor appointed me he sent me a personal letter, telling me of the pleasure it afforded him to show his appreciation of what he apparently considered a favor I extended him years ago. When he was a very young man we took a buggy ride one day and the Mayor has since said that I made a politician out of him on that occasion. Mayor Noonan was not my choice for Mayor in the skirmish for the nomination, but after he was declared the choice of the party in the convention, I went to work for him with a vim, and I presume he knows that. If he recalled the appointments on my account, I unst say that I am very much surprised, as I know of no reason of sufficient weight to cause him to take such action. You can say that I care but little for the place; in fact, I care nothing for it."

The members of the committee have about two months' work, and it is not of the pleasantest character. They have to examine all the books in the three offices and compare them with the vouchers and other records. They receive \$500 apiece and receive no allowance for clerks, having to perform all the work themselves.

As the committee must get to work in a few days, it is expected the Mayor will send in a new list without delay.

STREET IMPROVEMENTS.

The Lindell company asks authority to lay their tracks on either side of Delmar avenue, west of Taylor, for the reason that the street is not graded and there will be no room left for wagon traffic with the tracks in the middle and the Union Depot company wants the privilege on Arsenal street for the same reason. The board will look into the law on the subject and will, it is understood, give the desired permission if possible.

The Union Depot and Lindell Rallway Co's. asked for leave to change and continue their tracks under their ordinances just passed. The board refused to allow Allen & Vieths, contractors, to get their stone from the Workhouse, as the stone has been disposed of ahead. A petition to have a pond between Taylor and Bayard and Page and Cook avenues filled was left to the Sanitary Department. A compisint was received from Superintendent of Lightning Matlack that the Municipal Electric Light Co. has several circuits in use, which have not yet been examined. Sewer Commissioner McMath presented estimates for sewer work amounting to 597,000. At the board's annual meeting the question of widening Grand avenue from Caroline to Arsenal street and of improving Lafayette avenue from Mississippit o Grand, were referred to the Committee on Streets, the board being unable to decide on them.

City Hall Notes. Mayor Noonan and Chief Lindsay yesterday changed the Fire Department rule requiring applicants for positions to be 5/eet 7 inches in height, to 5/eet 6½ inches. Some of the men recently selected did not come up to the mark, and the change was made to accommodate them.

Mayor Noonan yesterday atternoon signed all of the change of motor street railway bills and a number of public improvement bills. The bill to order Main street vacated between Mailinckrodt and Salisbury was vetoed, beause of the protests made against it.

who took a prominent part in the convention.

Several arguments have been sent from here.
Speaking of the situation this morning, Mr.
John T. Field said:

interchangeable under any and all circumstances at the option of any holder. Practically to-day our money is all interchangeable and good anywhere in the United States, but let there come a wave of financial or monetary distrast, and at once a discrimination between our six kinds of currency will be inaugurated, much to the damage of the masses of the people. This country should have no legal tender money except gold and silver and paper issued against gold and silver or building actually in the treasury of the United States. Had our "greenbacks" never been made a legal tender our war would have not cost to exceed \$1.000,000,000 instead of \$3,000,000,000. Don't let us make the mistake again of greenbackism.

"Our objection to the compulsory purchase of \$4,500,000 silver builtion each month is for the reason that it requires the Secretary of the Treasury to do the impossible, for he cannot purchase that much silver, the product of the mines of the United States, and finding be cannot comply with the law, he will have the best possible excuse for doing nothing, and the country will be worse of than before. My advices from Washington are to the effect that the House will pass any bill which passes the Senate, and that there is a favorable silver majority now in the Senate. Some enthusiastic correspondents predict the remonetization of silver within ninety days."

Jim Butler was busy at the timeand pushed the fellow back. The drunken man would not stand this. He wanted to dight and he did not care who came up in front of him. Judge Cady ordered the man locked up in the cage.

After the adjournment of court the prisoner was sought. From his mandlin remarks it was learned that his name was Thomas Wells. He had no business in the court, it appears, and was simply out on a little tear. The court ordered Wells to pay a fine of \$10 and be imprisoned in the holdover for a term of eight hours for contempt. The fine will probably be stayed on good behavior.

The Broadway line is a close competitor of greatly profiting by the boycott. The roads run parallel, the widest distance apart being six blocks, while for about two miles they run within two and blocks of each other. Some ago the members of the present boycotting association were unfavorably disposed towards the Breadway line, because the care took the Bellefontaine line in preference, but since then improvements have been made on the Broadway line, and now that road is getting back its former patronage with good interest. On the Broadway cars this morning one-half the loads were habit of riding on the Beliefontaine care, which were a few blocks nearer. They took the Broadway cars to avoid delay in getting

down town.

But all of the Bellefontaine patrons did not do this. A large number of members of the association boarded the Bellefontaine cars with their pockets stuffed with circulars advocating their cause and a grim expression on their faces, determined to sit in the cars all day before they would put their fares in the

THE VOTE UP TO DATE. A full report of the standing of the teachers will be given in to-morrow's SUNDAY POST-DISPATCH. The mail to-day was enormous. In came from all sections of the city and sur g cities. Several votes were received rounding cities. Several voles were received from Eureka Springs, some from Chicago, Jefferson City, Louisville, Ky., Indianapolis, Ind., and other cities. The mail was so large that the work of counting it occupied the attention of a dozen men during a large por-bles of the day. The ballets came by mail and by messanger. Runners of the pupils on the suit of G. H. W. Meyer, entered Mr. Doran's residence during his absence and taken away carpets, etc., valued at \$112. The attachment was interdissolved, as the plaintiff had not given sufficient bond. A demand was made on Boettger for the carpets, but he had delivered them to Louis Sicher, 515 Franklin avenue, who claimed Meyer had bought them from him and had not paid for them, consequently Sieher refused to give them up. Doran has also brought suit for \$2.500 damages against Meyer and Sicher and Henry Boemier, the latter's attorney.

Senator Stanford's Youngsters.

From the Turf, Field and Farm. Senator Stanford, who came over from Washington with Senator Stockbridge to attend the Palo Alto sale, was constantly surrounded by groups of gentlemen who conrounded by groups of gentlemen who congratulated him on his success as a breeder. He said to us that he would trot Palo Alto against Belle Hamilin or any other horse, and that he would like to see an offer come from Allen Farm to trot, in 1891, the three two-year-olds of this season. Electrite, Experta and Planetra, and the yearling Mazatlan, all by Gentletten and Planetra, against the same number of colts of like ages, the progeny of any one or two stallions in the country, for a reasonable consideration. Electrite, it will be remembered, is out of Sprite, Experta out of thoroughbred Estner, Planetra out of Marshra, thoroughbred daughter of Planet, and Mazatlan is out of Rosemont, daughter of Pledmont and Beautiful Bells. Senator Stanford says four better foals never left Palo Alto in one car.

New Washington Track.

The new track at Washington, where the racing season was so successfully opened yesterday, will, with proper management, have a more successful record than its predecesso at Ivy City. The grand stand possesses at lyy City. The grand stand possesses a number of excellent innovations. It is not built with the lower floor level with the track, but from the fence a gentle slope runs up to the lower floor, which is not closed in, but entirely open on the track side. The result of this is that from any portion of the front lawn or lower portion of the stand a clear and uninterrupted view of the entire track can be obtained. The pool lawn adjoins on the left, being a little lower and reached by a few steps. The lawn of the entire track can be obtained. The pool lawn adjoins on the left, being a little lower and reached by a few steps. The lawn for the betters is light and roomy. It was an excellent idea having it lower than the front lawn and stand, as persons who do not like to crush in the crowd can stand above and get a view of the whole proceedings. It will also form a convenience in finding friends in the crowd or in spotting the man who gave you that tip on the last race. The upper stand is light and airy and will seat 2,500 people, while the whole building will accommedate easily 4,000 visitors. On the opposite side of the stand from the pool lawn is the club house. This is a pretty little structure, three stories in height, with wide wery convenience for comfort and will be open for members during the entire year. The Secretary's office, paddock and sheds follow in order, and then nearer the lower turn come the stables.

The Brotherhood Game

The Chicago and Cleveland Players' League Clubs meet again at Brotherhood Park tomorrow afternoon, the game being called at 3:15 p. m. Either O'Brien or Bakely will pitch and Brennan or Snyder catch for Cleveland, while Chicago will put King or Dwyer in the box and Boyle or Farreil behind the bat. The park now presents a fine appearance with its new grand stand and other improvements, and if the weather is at all favorable to morrow the attendance will no doubt be enormous.

At Sportsman's Park. The Omahas and Browns will play again tomorrow afternoon at Sportsman's Park. The visitors are a strong team and the game, beyond doubt, will pitch for the Association men, and either Knell, the Californian, or Fanning, the Buffalo player, for the Westerners. The game will be called at 3 o'clock by Association Umpire John Hunt, with the teams arranged as fol-

Boston, Mass., April 5 .- John L. Sullivan was seen last night with regard to the pub-lished report that J. M. Corbett, the San

lished report that J. M. Corbett, the San Francisco heavy-weight, was anxious to try his skill against the champion.

"I'm more than ready to meet Corbett," said Sullivan, "but only on one condition. If we are to box four rounds I'll contract to put him to sleep in that time. If I succeed I am to get \$1,000; if I don't he gets the money. No half business about it. The contests for gate receipts savor too much of faking. You can say that John L. Sullivan will fight Corbett four rounds for \$1,000 and if he does not whip him in that time won't accept a cent."

Ed Smith Challenges Corbett.

Ed Smith, the Denver heavy-weight, who has knocked out La Blanche, the Marine, and Mike Cleary, is in the city with the Muldoo horse lovers and owners interested in the great Eastern handleaps, says the Louisville Courier-fournal. The information, which is reliable, is that the great son of Norfolk and Marian was slowly galloped a mile over the Neat Side Park course on Saturday morning and that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard that when pulled up he was blowing so hard the pulled up he Combination and says he will spar Jim Con

Charley Mitchell's Acquittal.

The trial of Charley Mitchell, the champlo ougilist of England, for assaulting Bill Goods ame up in the Marlborough street polic station April 2 and attracted a tremendous crowd. Among those present were "Pony" Moore, Eugene Stratton, Mr. Abineton, Duke of Manchester, Ernest C. Wells, Lord de Clifford, Charley White, Charley Bates, Arthur Cooper and Johnny O'Neill, Great interest was manifested and bookies bet odds that Mitchell would be fully committed. Chesterfield Goode and Cockburn, whom Mitchell also assaulted, presset the case, but Mitchell also assaulted, pressed the case, but after the evidence of Abington and Mitchel had been heard, the pugulist was discharged, amid great cheering.

Sporting Notes.

It is said that John F. Donovan of St. Louis will accept the offer of Dick Roche to back Schaefer against Slosson for \$5,000 against billiards except cushion caroms, and to match him at the latter game at even money.

The M. A. C. C. have a run at Forest Park to-morrow morning, the throw-off taking place at 10 a.m., and in the afternoon they will attend the game at Brotherhood Park between the Chicago and Cleveland Players' League teams.

MAGINTY'S BEST FRIEND THE ONLY M'NICHOL.

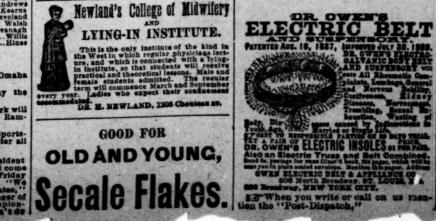

Before Maginty went down in the sea— As you have often no doubt heard tell, He longed for a refuge, he longed to flee Or even to hide in the depths of the well. Often we feel disheartened, betrayed, Tired of everything, weary of life, Especially if with a high-toned maid Who never would make a poor man's wife,

Down went Maginty and never got up, He hadn't ambition to rise and soar; He drank to the bottom of poverty's cup And swore like a trooper to drink no mot When he was cone from the sight of men, Leaving his debts like a load to carry. There isn't a doubt but his good wife then Thought what a fool a girl is to marry.

But if you start and go the right way,
No one can blame you, woman or man;
Buying up goods with little to pay—
And that on McNichol's installment plan,
Eavy and light is this yoke you assume
Never a load of debts at your back;

Who could wish a surer device
For making a home than this I bespeak
When home is made so cosy and nice
By the simple paying of sums by the week;
Carpets and curtains, portieres in pairs,
Gas stoves and pictures—baby's new cab;
Neighbors see quickly things better than their;

The par value of a share of stock on any except one of these for which I speak is \$50, and in all but two cases the shares are 'fully paid.' These companies operate properties in: New York, Baltimore, St. Louis, Rochester, Philadelphia, Indianapolis, Chicago, Cincinnati, Aurora, Debver, Detroit, Foronto, Newark, Portsmouth, Boston, Milwaukee, Albany and Washington. The exception to the £10 face value of the share is the Betz Co., of which 6 bonds are quoted at par £100. Most of the £10 shares are quoted in London above par. At the Four Courts she appealed to Mrs. Harris, the matron, to save her, as she had taken morphine. She was taken to the Olapensary, but Dr. Steinmetz saying she was on the verge of delirium tremens and not suffering from poison she was again locked up in the hold-over. As she began to recover her senses she sang and delivered dramatic and poetical selections in an enetertaining manner. She first said that she was an actress, and then that she was a stenographer and typewriter. Inquiry showed her to be the niece of a city official who had sent her to the house of the Good Sheoherd and done everything he could to reform her, but without avail. Mrs. Mary Cody, a friend of the family, at 2006 Eugenia street, took her about three weeks ago hoping to have some influence over her. She had a lover, a fireman on the Wahash road, who wrote to her in such a manner as to drive her to desperation. Thureday he wrote her that he had no further use for her as he had found someone else. She then secured and swallowed twenty grains of morphine, but the prompt assistance of Dr. Morrow saved her life. Yesterday morning she left Mrs. Cody's house. arrested at Sixth and Spruce streets about 7

OTTAWA, Ont., April 5 .- Samuel Frazier, a Scotchman 76 years of age, who was a gold miner and argonaut of '49 in California, was miner and argonaut of '49 in California, was married in Pennington on Saturday to his adopted niese, Aggie Brown, aged 16. The Rev. Mr. Abraham, Fresbyterlan minister, officiated, much against his will, as he had opposed the marriage. Subsequently there was a wedding supper which was interrupted by a gang of men and boys bent on a charivari and armed with tin pans, trumpets and rocks. The best man bought the crowd off for \$5 and there was no further trouble. The ancient bridegroom has had an eventral career. He was a gold miner in Australia and later in California and is reported to have made and lost half a dozen fortunes before he came to Hamilton. Frazler is said to be very fond of the girl and has been impatiently waiting until she attained her sixteenth year. Aggle also claims to be much in love with the old man.

A Demand for Sermons in English.

By Telegraph to the Post-Disparce.

NEW ORLEANS, La., April 5.—Father Boe garts. Vicar-General, is to leave here for Ireland at an early day. He goes in search of priests. New Orleans was never so badly off priests. New Orieans was never so badly off for English-speaking priests as at present. The faithful complain that services in nearly all the Protestant churches in the city are held in English, and many Catholics who do not understand any language but English go to Protestant churches to hear sermons they can understand. The defections have been very numerous from this cause and efforts are being made to procure English-speaking clergymen for the people.

Hair-Pulling Scene at Church. SPRINGFIELD, O., April 5.-A lively scene took place on Tuesday night at the prayermeeting held by the Second Baptist Church Mrs. Mary Higgins and Miss Jerry Taylor, two leading members, became involved in a fuss leading members, occame involved in a tass over some insignificant matter and so far forgot themselves that they engaged in a hair-pulling sculide before the whole congre-gation. The belligerent females were sepa-rated and this morning Miss Taylor had Mrs. Higgins arrested, charging her with assault

number of men were sent into the
workings of the Baltimore vein of
No. 5 shaft to clear up the debris.
They had not proceeded far when
a most violent explosion of gas occurred.
Fortunately none of the men were injured. It
is believed that the explosion was due to a fire
still burning in one of the high elevations of
the shaft where water could not reach it,
owing to compressed air. The work of cleaning up will have to be abandoned now until
all fear of fire in the pit has passed away. The
portion of the shaft on fire now is to be dooded
again. Other explosions are likely to take
place. The additional damage done is said to
be quite extensive.

College Students Discuss the Question of

FUTURE OF THE NEGRO.

Colonization. ANN HARBOR, Mich., April 5 .- A public de hate was held last evening in the law lecture-room of the University of Michigan between students representing the law and literary de-partments. The question discussed was whether or not the colonization of the negro would be for the best interests of the United States. The judges chosen were from the pro-fessors of the law and literary faculties. The States. The judges chosen were from the professors of the law and literary faculties. The affirmative side of the question was presented by G. W. Roth, J. W. Freeman and M. G. McClung. The negative was argued by B. Clung. W. V. Rinehart and L. Z. Caukin. Among the points presented by the affirmative were: The inferiority of the race, supported from biblical and solentific standpoints. The affirmative then attempted to prove that evils must result from intermingling superior and inferior races under the same Government. One of three results, it was said, must follow: The extermination of the inferior race, its amalgamation or colonization. The two first were manifestly undersirable, hence the latter was the solution. The negro, it was declared, was the cause of the political difficulties between the North and South. His removal would solve the Southern question and would, moreover, put an end to the present lack of prosperity in the South. The negro in America was subservient to the whites. In Liberia he would be his own master and would civilize Africa. The negative argued that compulsory colonization would be unconstitutional and that the law providing for optional colonization would be ineffective. Granting constitutionality, the coat of removal would be excessive. The negro, it was said, was an American citizen and was entitled to all the rights of citizenship. He was industrious, and the present and future prosperity of the South depended upon his presence. Remove him and the cotton interests would suffer incurable harm. He is advancing, it was argued, morally and intellectually.

"BRADSTREET'S" REPORT. Review of the Business Week in Leading

Lines of Trade. By Telegraph to the POST-DISPATOH. street's' corroborate previously reported indications that, while the volume of general trade is heavy there has been a distinct check to the movement of staples to retailers' hands as compared with the dis-tribution some months age. An improvement in trade is reported following more seasonable weather at Omaha, San Francisco and Cincinnati. There are no signs of increasing activity at Boston or Philadelphia. The overflow along the lewer Mississippi Valley have checked trade at New Orleans and even at St. Louis a similar influence has been felt. Advices from Chicago are moderately cheerful.

At New York, while the quarter's total of bank clearings is 4 per cent larger than in 1889 for March, the total this year is 2½ per cent less than in March, 1889. Bank clearings at tidry-six cities for March aggregated \$4.522.514,831, a gain over a year ago of 1.5 per cent in March, 1889, over 1889. For the first quarter of 1899 the gain is 5.5 per cent over the first quarter of 1899 the jain is 5.5 per cent over the first quarter in the first quarter of 1899 over 1889 was 17 per cent. at Omaha, San Francisco and Cincinnati. There are

quarter of 1889, but the increase in the bank clearings in the first quarter of 1889 over 1888 was 17 per cent.

Special investigation by "Bradstreet's" into general trade for the past quarter and into mercantile collections at twenty-one cities shows that the late mild winter, low prices and depression in the coal trade have had unfavorable effects upon retail distribution of heavy wearing apparel and kindred goods, and the influence of the heavy stocks carried over by retailers is reflected in a less active demand than anticipated and slow collections. At many points there is less discounting of bills and small demand for accommodation.

The only assignable cause for the existing depression in the iron and steel market in the face of the extraordinary consumption and prospects for a still heavier consumption is found in the fact that productive capacity has been developed in every department to an extraordinary degree. The increase in the production of crude from within the past six week. The quality for pudding, heating and rolling has also been greatly enlarged. The pig from market is dull. Prices are low and there are no signs of an early reaction, as users of all kinds of finished and rolled iron decline to place heavy orders.

Wheat has not varied in price much, tending upward toward the close. Reduced stocks abroad and crop damage at home are the stimulating features, for our exports have declined visibly and notably from the Pacific Coast. The total shipped this week from both coasts (including flour as wheat), is 1,521,896 bu, against 2,401,156 bu the week before. From July 1 last, exports equal \$1,215,675 bu, against 69,40,120 bu in a like portion of 1888-89. Indian corn is firmer on lighter interior shipments and continued heavy exports. Oats likewise are fractionally hicher.

Drives in spring dress goods are the leading features of the kastern dry goods jobbing trade. A confractionally bleher.

Drives in spring dress goods are the leading features of the Eastern dry goods jobbing trade. A considerable movement has been effected at cut rates.

Trade with agents is only moderate. Cotton and wood dress goods show the most notable activity. Prices are as a rule unchanged.

of the suit against the trust made Chicago Gas an exception, and it was up & per cent at 46½. The list receded slightly from the opening prices, but there was no feature whatever to the trading beyond the comparative activity of Chicago Gas, Rock Island, Lackawanna, Union Pacific and St. Paul. A stronger tone was developed late in the hour, however, and some of the early losses were recovered, the market at 11 o'clock beingduil, but firm at insignificant change from first prices.

Noon—Money has been easy at 365 per cent. The stock market after 11 o'clock was active and prices remained practically unchanged until after the issue of the bank statement, when the market became rather duller and prices were let off a shade. The dealings presented no feature, however, and the close was dull and steady at the slightest changes from first prices.

Not as yet thoroughly weakened from Chicaco's influence, local traders had a good deal of their bull ardor cooled by the sharply lower prices of that market at the start, the clearing and milder weather and the 900,000 bu decrease in Bradisreet's report of flour and wheat exports from both coasts adding to the depression also. The buying was offish, as no outside orders were filled, and selling rather pressing, with the result that May opened at 774ge, and sold off to 778ge. July's first trades were at 754ge. It did not take long, however, to recover from this sarly spell of weakness, and a bull stack struck the market that Missouri State report, and a numb for unfavorable ports brought in personally or by mail and dependence of the foot, the bears went to the rear and, the price advanced rapidly. Before it was checked May sold at 784ge and July at 763ge, the interfecting the influence of the crop reports influences most keenly. Afterwards the market was unsettled and irregular, May dropping back Grain and Flour.

CHICAGO, March 5.—Ne foreign advices and fine weather, with general rains reported all over the winter wheat States, caused a weak feeling in wheat and the sellers on the "curb" and at the opening of the market were numerous and urgent. From Missouri. Indiana and Michigan crop reports come worse than ever and many of them say the damage is from 30 to 50 per cent. None of them say "improved." The advice we have given for some weeks past has been to buy on all weak spots and at this writing it looks safe to continue it. With a confirmation of any 20, 30 or 50 per cent damage to winter wheat and seeding of spring delayed, along with the estimates of Commissioner Hagerty of the Bureau of Statistics of Dakota that the acreage in spring wheat sowing will be 40 per cent less than the winter wheat, there will hardly be enough for bread and seed in the coming crop. It is a question of weather for a week or two as to the damage and the sowing of the spring wheat crop. Meantime it will do to buy May and July wheat ou oreaks.

Corn was less active. Exporters have been moderate sellers.

Outs are steady and are low in prices.

Provisions strong, particularly ribs, and lard at an advance of 41ge 100 with a good business doing.

Butter and Eggs.

Butter—Receipts, 75,750 lbs. The market continues easy, and only fator good flavored creamery and dairy wanted; gathered creamery, if good flavor and good color, is in good demand and sells instead of dairy. There is a good demand for choice sweet butter that can be sold for 19 to 20c, that price being about the top for choice seconds. Shippers should watch the market very closely, as another decline is expected next week. Makers of creamery should keep the price on cream and mik down or they will lose money, as the bottom price is not yet reached. CREAMERY-

DUTY ON SILVER LEAD ORES.

Protes, Against the Proposed Action of the Louse Ways and Means Committee. El PASO, Tex., April 5 .- The Board of Trade adopted the following resolution last aight which, has been wired to the House Ways and Means Committee and the Texas delegation in Washington:

delegation in Washington:

Whereas, It is proposed by the majority of the Committee on Ways and Means to recommend the imposition of a duty of light cents a pound on silver lead ores, and.

Whereas, The bulk of such ores are imported into the United States from the Republe of Mexico and the imposition of this duty will result in practical prohibition of such importation, as these ores are necessary for the operation of many large smelting industries at this point and at other points on the frontier of Texas, and closing these smelters would paralyze the dry ore industry of New Mexico, Arizona and Texas, resulting in throwing thousands of miners and laborers out of employment in those localities and further prove most disastrous to the growing commerce between the United States and the Republic of Mexico, Inasmuch as these ores constitute almost the sole purchasing product which Mexico has to exchange for commodities and wares of American manufacture; therefore,
Resolved, That we carnestly protest against

facture; therefore, Resolved, That we earnestly protest against

Youths', Boys' and Children's Clothing. We have an exclusive department for the sale of boys' clothing, to which we ask the attention of the citizens of St. Louis.

MILLS & AVERILL, S. E: Cor. Broadway and Pine. A Faithful Dog's Tomb.

By Telegraph to the Post-Disparch. PHILADEEPHIA. April 5 -- An old man bent terrier trotting faithfully close to his totter ing steps, has been a familiar sight in the eighborhood of Ninth and Walnut streets or many years. The affection between the wo showed itself in their daily walks, for they ere always together. The old man is John atterson, a wealthy bachelor, with nothing a the world but who lives at Ninth and Walut streets. Prince, the terrier, became ck itwo weeks ago, and his master maulted the different dog doctors, but on aturday Prince died, and the heart of his old oachelor master was almost broken. The same afternoon old Mr. Patterson went to a neighboring carpenter shop and ordered a small walnut coffin. This was upholistered as if for a human being and was sliver mounted, on the lid a sliver plate was put, and on it the name of the little terrier, his age and pedigree wete insoribed. When the coffin was brought to the old man's house the body of the dead terrier was placed into it by his master and carried to the back yard, where it was burled with great solemnity. A tombstone will be erected at the head of the grave to his memory.

A Mysterious Land Buyer

BURLINGTON, Wis., April 5 .- A richly dressed lady, claiming to be a niece of Philip Best, the brewer, came to this city several lays ago and startled Mr. John Patterson by proposing to buy his large farm south of the town. Mr. Patterson, after some hesitation, named \$65,000 as his price and it was instantly accepted. A day or so was spent by the lady in looking over her premises and Monday she took her departure for Milwaukee, saying she would return Thursday with the money and would bring her son to look after the farm. She has not since been heard from. In addition to her relationship to Mr. Best, she claims to be a granddaughter of Gen. Blucher and the wife of a British officer who was killed in the Crimean War. She was an intelligent woman, was richly, though plainly, dressed, and claimed to be the owner of merchant ships, breweries, houses, lands and property of various kinds aggregating millions of dollars in value. She also showed considerable money and letters of credit for what purported to be large sums. She is supposed to be a monomaniac on the subject of land buyling. dressed lady, claiming to be a niece of Phil-

the adjacent country from the present stage of high water. In speaking of the risks incident to a rise un der present conditions an officer of the corps of engineers, who long engaged in work

n the Mississippi, said: "Since the addition to the levees and the north of the Red River the danger to the land to the south of that stream has been largely increased. Four or five years ago the outhern levees were not nearly so strong as they are to-day, and yet with an equal stage of water the risk of overflow was less.

THE REASON FOR THIS IS evident when the situation is understood. The and when both streams are full disastrou gone by the district adjacent to New Orleans, although lying very low, in many cases below the river bed, did not suffer as much as might have been expected. The cause of this was the weakness of the levees further up the stream. The worst overflow were likely to take place near Memphis, where the Ohlo waters were added to those of the upper river. A levee would break, and the waters, instead of being confined to the bed of the stream, would spread all over the country. In one case the water near Memphis attained a width of nearly twenty miles, and in this year the floeds on the lower river amounted to little or nothing. The overflow above acted as a safety valve, carried off the surplus water and acted as a safety valve to the down river as a safety valve to the down river the country of the surplus water and acted as a safety valve to the down river the country of the surplus water and acted the surplus water and a
